

BioTechniques International Subscribers

This life science journal reaches bench researchers worldwide who are actively involved in advanced methods and techniques critical to the advancement of life sciences research. It is the leading peer- reviewed journal for the publication of original laboratory methods and has a broad scope of articles describing technical innovations in established and emerging areas in a diverse array of healthcare subject areas including: Genomic Technologies, Bioinformatics, Electrophoresis and Separation Technologies, RNAi, Nanotechnology, Imaging Technologies, Microbiology, Proteomic Technologies, Microarray Analysis, Mass Spectrometry, Microfluidic Technologies, Microscopy, Plant Biology, Drugs Discovery Technologies.

Minimum order: 3,000

Job Function
Bioengineering/Biophysics
Biochemistry
Microbiology
Virology
Genomics/Genetics
Immunology
Molecular Biology
Molecular Diagnostics/Pathology

Job Function (con't)
Drugs Discovery/Development
Cell Biology
Neuroscience
Proteomics
Bioinformatics/Computational Biology
Marketing/Sales/Admin/Purchase
Other
Job Title
Professor/Instructor
Principal Investigator
Postdoctoral Fellow
Graduate Student
Technician/Research Assistant
Research Director/VP of Research/CSO
Department Head
Lab Director/Chief Scientist
Staff Scientist
Process Engineer
President/CEO/VP/Owner
Business Development Director/Manager
Product Manager
Consultant
